# Success in Douglas County

**2016 DC Smart Energy  
Green & Solar Tour**

Our Community and Energy Coordinator RARE volunteer is a key team member expanding our capacity to accomplish greater results

Monthly energy articles in our newspaper are expanding awareness

[dcsmartenergy.org](http://dcsmartenergy.org) is connecting our community to tips & resources

Our 15<sup>th</sup> Annual DC Smart Energy Green & Solar Tour encourages energy savings

# Lessons Learned

Collaborate to maximize limited time & funding

Engage a wide range of volunteers & keep them active

Keep momentum going with events & activities

Be ready when opportunities arise

City of Roseburg Pacific Power  
Blue Sky Community Challenge

# Bringing It Together

DC Smart Energy community group  
partnering locally, regionally

DC Smart Energy Steering Committee

Point of Contacts highlighting member  
expertise

Groups focusing on EVs,  
Battery Backup & Community Solar

# Moving Along to Next Steps

Develop EE & RE Campaign to reduce energy use in low & middle income households, businesses, farms/ranches & increase solar

Create an Energy Baseline Profile for local governments and residences

Prepare Energy Curriculums to share in schools and community groups

Develop individual & community renewable energy projects
